

If April  
showers  
should  
come your  
way, they  
bring the  
flowers  
that bloom  
in May

## Don't be fooled by April...

It may appear as if the gateway to spring is opened, but winter has been known to rear it's head, one last time in April.

We will experience our first Friday the 13<sup>th</sup> for 2018, in April. The origins of this date being unlucky is shrouded in mystery. Some Biblical scholars believe Eve tempted Adam on a Friday, Seafarers considered it bad luck to set off on a journey on a Friday, and medical researchers have tried to prove, unsuccessfully, that people were more prone to misfortune on the 13<sup>th</sup>.

Get involved-Earth Day 2018, April 22, will focus on 'Ending Plastic Pollution'- raising awareness worldwide of the threat that plastics have on our wildlife, marine life and environment.

Arbor Day, on April 27, celebrates the planting and caring of trees. We've only got this one earth, It is our responsibility to help her thrive!
